## Education & courses

2013 - 2018: ELS Plovdiv  
2018 - Present: University  
of Plovdiv

### Softuni:

Java Fundamentals  
C# Advanced  
C# OOP  
JS Advanced  
JS Applications

2011 - 2017: Attended  
Electronics courses  
(and won multiple competitions)

## Work experience

ASP .NET intern for an  
IoT project (6 months)

## About me

I'm a software engineering student at the University of Plovdiv "Paisii Hilendarski" whose goal is to become a successful developer or a system administrator. Motivated and able to work in a team, as well as on my own if it is required. I'm interested in everything tech-related and always looking to learn new things.

## Strengths

- Critical thinker
- Good listener
- Teamwork
- Multitasker (still developing this skill)
- Time management (kind of)
- Always learning new stuff

## Additional skills & interests

Except the skills I have acquired in university and from courses, I also work with Office 365 and I have experience with DaVinci Resolve, Adobe Photoshop and Lightroom.

A few of my interests are:

- Photography and editing
- Making memes
- Watching tech stuff on YT

My socials:
